# Noah A. Misukonis

misukonisn@gmail.com □ (309) 307-0750 □ www.linkedin.com/in/noah-misukonis/

Computer Science student with hands-on software engineering experience building cloud infrastructure, CI/CD pipelines, and enterprise integrations at State Farm. Combines strong technical fundamentals with proven leadership across technical and athletic teams.

## Education

Missouri University of Science & Technology — Expected: May 2028
**B.S. Computer Science** — **GPA: 3.52/4.0**
**Relevant Coursework:** Algorithms, Database Systems, Operating Systems, Data Structures, Discrete Mathematics

## Experience

State Farm Insurance Companies — Bloomington, IL
**Software Engineering Intern** — May 2026 – Aug 2026

- Engineered and maintained internal applications on AWS (ROSA, ECR, ECS) using Docker and GitLab CI/CD pipelines, streamlining build and deployment workflows for the development team
- Built and scaled integrations across Slack, Jira, and Confluence to strengthen cross-team collaboration, and spearheaded the migration of Slack integrations from test to production
- Independently architected and shipped two company-wide Slack applications: TESA, an AI-powered knowledge management connector, and Jake Bot, a general-purpose knowledge and information assistant used across the organization
- Designed and deployed a company-wide service outage notification system delivering real-time alerts, cutting mean-time-to-detect by 14 minutes; partnered with cross-functional teams to shape project direction from concept through company-wide launch

Missouri University of Science & Technology — Rolla, MO
**House Manager** – Lambda Chi Alpha Fraternity — Dec 2025 – Dec 2026

- Oversaw the fraternity's house, ensuring it stayed clean and well-maintained
- Planned and led multiple house-wide improvement projects, coordinating with fraternity leadership and members

## Organizations

Missouri University of Science & Technology — Rolla, MO
**iGEM Design Team Lead –** International Genetically Engineered Machine — Jan 2025 – May 2026

- Built a virtual cell biology lab simulating chemical reaction kinetics, cell growth and decay, and ion uptake, enabling the team to run experiments without physical reagents
- Led a team engineering nonpathogenic E. coli to uptake cadmium from water supplies; inspected and coded nucleic acids to create a fusion protein

**Varsity Track and Field** – Pole Vault — Aug 2024 – Present

- Competed in NCAA Division II track and field for Missouri S&T as a pole vaulter

**Intercollegiate Knights** – Service Organization — Aug 2024 – Present

## Volunteering

**Hasselman Alumni House Assistant** – Missouri University of Science and Technology — Jan 2025 – Present

- Welcome and assist alumni guests at weekly on-campus events, helping ensure a smooth guest experience

## Skills

- C++ - Python - Go - AWS (ROSA, ECR, ECS) - Docker - Kubernetes/OpenShift
- GitLab CI/CD - Slack API Integrations - Jira & Confluence - Management - Problem Solving

## Honors & Awards

- 2024 State Farm Scholar Athlete of the Year
- 2024 Illinois State Scholar
- 2026 GLVC Conference Pole Vault Champion
- Seal of Biliteracy in French
